

# OUR TOWN DEKANI

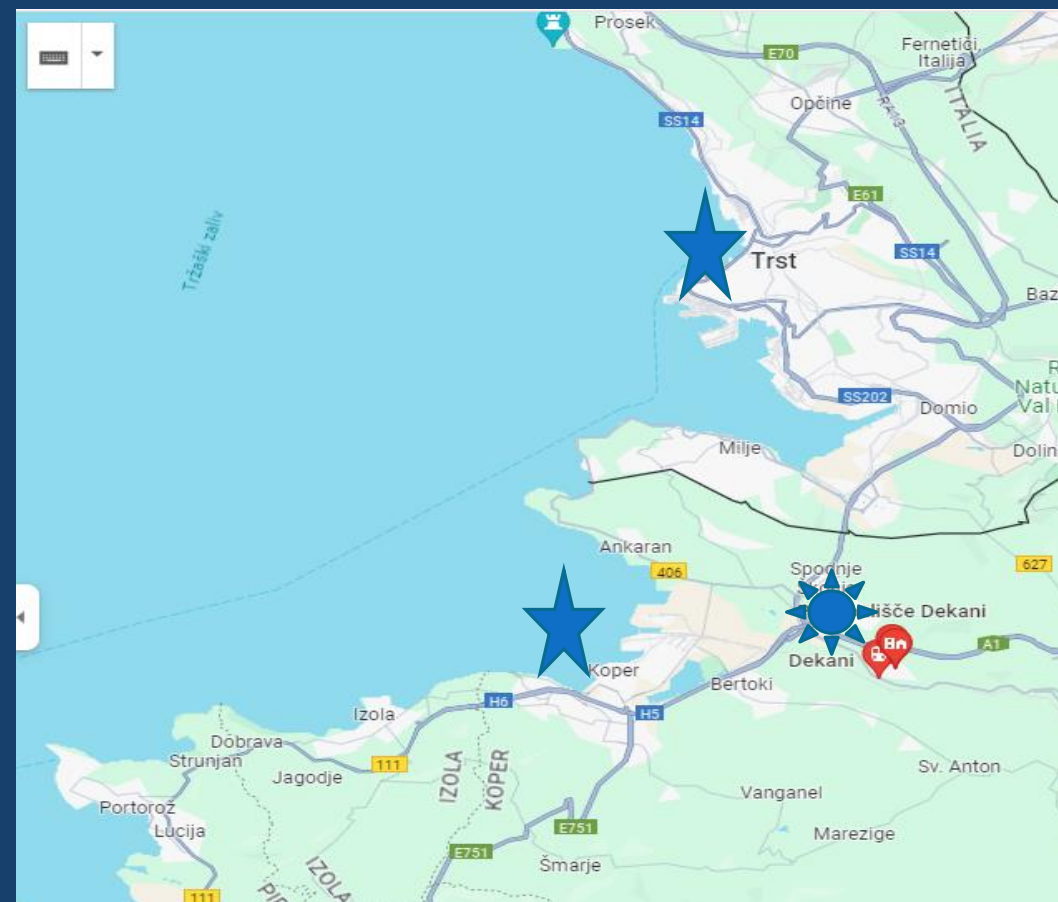

Dekani is small town in the coastal region or the riviera of Slovenia. The nearest bigger town is Koper, where Slovenia's port is.

Aproximatly 1500 people live in Dekani.

Dekani are just a few (5km) from Italian border and the town Trieste. We learn Italian in school.

This is the oldest house in Dekani, from 1479.

A venetian royal family called De Cani lived in this villa and that is also where the name of our town, Dekani comes from.

This is the path that the students who live in Dekani take to school every day

Some of the students take the school bus every day, because they live in the nearby villages

Our town has a park with a playground and a small basketball field.

There`s a small supermarket and a cafe in our town.

In our region the weather is great for olive trees and vineyards.

Our school also has a few  
olive trees  
and produces olive oil.

We are big fans of football and 6 of the boys in our class train football.

This is the town's football club stadium FC Jadran Dekani with its three pitches.

This is the town`s church, from 1229.

There is a post office in our town  
and in the upper floor there's a  
dentist's office.

This is the town`s firestation.  
3 boys from our class are young firefighters.

In the old part of the town is the old kindergarten which is closed since our new modern kindergarten was opened.

Koper is a bigger city, about 5 km from Dekani.

We go shopping, for walks and other errands to Koper.

Many people have their jobs there.

We also go swimming there in the summer.

Koper used to be an island.  
Koper celebrates 1500 years of existence this year.

Koper is mostly know for its harbour.
